PROFESSIONAL EXPERIENCE

Freelance

Toronto, ON

Full Stack Developer

Dec 2022 – Present

- Delivered a fully responsive e-commerce platform using React, TypeScript, and Tailwind CSS, featuring product management, user checkout, and inventory tracking.
- Overhauled a client website by implementing modern UI/UX principles, leading to a 50% increase in online engagement.
- Developed custom themed Shopify stores to meet specific business needs, including unique branding elements, product customization options, and enhanced mobile responsiveness.
- Organized workshops with clients to define project scope, goals, and deliverables, ensuring clear communication and alignment of project objectives.

Thermo Fisher Scientific

Mississauga, ON

Data Management & Compliance Associate

May 2021 – Sep 2022

- Managed a 4-member team, leading the generation, revision, and auditing of product specifications resulting in a 30% annual reduction in compliance errors and significant enhancements of internal processes and client deliverables.
- Conducted thorough investigations into deviation records, identifying root causes and deploying targeted CAPAs.
- Directed a data validation campaign, eliminating historical inaccuracies for 15 years' worth of quality records and ensuring alignment with current GMP and Health Canada requirements.
- Developed and authored comprehensive training SOPs, streamlining the onboarding process for new hires.

Technical Services Coordinator

Nov 2019 – May 2021

- Facilitated the transition of legacy change control records into a new, unified database system, ensuring seamless data migration with zero downtime while maintaining 100% data accuracy.
- Led the development of annual product reports for a portfolio of 120 bulk and finished products, reviewing batch records to identify and document updates in packaged goods, active ingredients, and raw materials.
- Assessed updates for incoming client specifications, implementing revisions for analytical release forms and certificates of analysis in adherence to USP, EP, and JP regulatory guidelines.

Tiger Drylac Canada Inc.

Guelph, ON

Laboratory & Information Specialist (Co-op)

Jan 2018 – Jun 2018

- Analyzed on-going test trials to correlate data on pigment and base variations with final blends, predicting optimal formulations to minimize discrepancies in future samples.
- Established a quality assessment system for early detection of batch inconsistencies, reducing sample rework by 20%.
- Achieved a 98% approval rate across 90 product blends developed in alignment with client specifications.
