Developer Profile

Front-end developer specializing in building responsive and interactive web applications. Actively engaging in learning back-end technologies while staying current with modern advancements.

Recent Projects

Audiophile | [Live](#) | [Repo](#)
React | TypeScript | Tailwind

- Developed an audio peripherals eCommerce store leveraging core React concepts including state management and dynamic routing
- Developed and implemented a central store combining useReducer for state logic and Context API for global state access
- Demonstrated proficiency in data structuring and management by creating and integrating a comprehensive data file for product details to enhance performance and scalability

Netflix Clone | [Live](#) | [Repo](#)
React | Firebase | Tailwind | API

- Built an engaging and user-friendly interface for streaming movie trailers using a combination of front-end and back-end technologies including React and Firebase
- Utilized Firebase's real-time database capabilities, allowing for instant updates and synchronization of saved movies across multiple devices and users
- Implemented secure user authentication and protected routing allowing users to create accounts, log in, and log out of the streaming platform

Photosnap | [Live](#) | [Repo](#)
React | TypeScript | SASS

- Developed a visually appealing user interface employing grid layouts for a structured and engaging visual experience
- Incorporated React's routing features for seamless page navigation and TypeScript for type safety, enhancing code reliability and maintainability
- Leveraged SCSS partials for efficient styling arrangement, demonstrating advanced skills in modern CSS practices and responsive design

Work History

Regulatory Compliance & Data Management Associate   Nov 2019 – Sep 2022
Thermo Fisher Scientific | Mississauga, Canada

- Spearheaded the auditing and updating of Good Manufacturing Practice (GMP) documentation, significantly reducing errors and enhancing the quality of internal processes and client deliverables
- Orchestrated the integration of new testing methods and product specifications, ensuring compliance with evolving Health Canada regulations
- Conducted comprehensive training sessions for new and existing staff on regulatory compliance procedures and best practices, elevating the team's overall expertise and adherence to quality standards

Laboratory Technician (Co-op)   Jan 2018 – Jun 2018
Tiger Drylac Canada Inc. | Guelph, Canada

- Demonstrated precision in synthesizing chemical formulations, meeting diverse sample requirements for various projects
- Executed colorimetric techniques, handling bases and pigments to create custom color mixtures precisely aligning with client specifications and quality standards

Education & Training

Immersive Web Development Bootcamp | Certificate   Aug 2022 – Jan 2023
Juno College of Technology | Toronto, Canada

Chemical Engineering Technology | Advanced Diploma (Co-op)   Sep 2015 – Apr 2019
Mohawk College | Hamilton, Canada
